Reference: July Quarterly Report

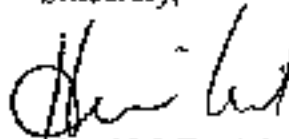

Dear Mr. Ragan:

Enclosed is the report for our committee for the period ending June 30, 1998. As we discussed during our phone conversation in June, there are three checks listed as "Offsets to Operating Expenditures" which represent checks that were written during a previous reporting period, but never mailed. In all three cases, alternative payment arrangements were made and subsequently reported in their own right. Thus, these are truly unnecessary transactions and may now be considered settled. Please notify me if the agreed upon reporting method found herein is unacceptable for any reason.

Also, Mr. Barret Shelton and Mr. R.D. Hicks have contributed excessive amounts toward their limit in the General election during this reporting period. We are seeking reattribution authorization for the necessary portion of these contributions, and will refund those amounts within 60 days if need be.

Thank you in again for your assistance. Please call if there are any questions.

Sincerely,

Henri McDaniel  
Treasurer - Friends of Bud Cramer
